

## Materials you'll need:

- Thick card (an old box is ideal)
- Paint
- Ribbon

## Dancing Dinosaur Feet!

Use this cutout  
as a guide

Follow these instructions to create your dinosaur feet!

## Instructions:

1. Cut two large dinosaur feet from card. Paint the feet what ever colours you think your dinosaur might like and leave to dry.
2. When dry ask an adult to make two holes in each foot, a little bit further apart than the width of your own feet.
3. Thread some ribbon through the holes, knotting underneath and leaving a loop above. The loop should be just big enough to slip your foot in. Thread a longer piece of ribbon through again knotting underneath. This second loop should reach up to your waist.
4. Slip your feet into the small loops and, holding the loops at waist height to help you control the feet, practice your dinosaur stomp!

# Finished!
