Follow these instructions to create your finger puppet mouse!

## Instructions:

1. Cut a semi-circle from your grey card, and roll it into a thin cone shape for the mouse's body.
2. Glue or sticky tape the ends together to hold in place.
3. Cut your white pipe cleaners and glue to the pointed end of the cone to make the whiskers
4. Glue the pom-pom on to make the nose (you can always roll up a piece of pink card into a ball to make the nose!)
5. Bend the pink pipe cleaner into a tail shape and glue or sticky tape to the inside of the cone (make sure some is sticking out!)
6. Add the googly eyes or draw on the mouse's eyes.
7. Cut out the circle shapes from your pink card and fold across the middle.
8. Glue or sticky tape the tabs so the pink ears stick up!
