

You must be over the age of 13 to have an account on Facebook!

Treat your password like your toothbrush. **NEVER** share it with anyone!

Stay Safe online...

Never agree to meet anyone online in real life without your parent's/carer's permission and **NEVER** meet anyone on your own. **ALWAYS** go with a trusted adult.

Do not open an email from someone you do not know as you may download viruses.

The best way to flag abusive content on Facebook is to use the **'Report'** links that appear near the content itself. When a report is submitted, they will review it and take any action warranted by their Statement of Rights and Responsibilities.

If someone is hassling you on Facebook or saying things you do not like you can also block them. People you block won't be able to find you in searches, view your profile, or contact you with Pokes, Wall posts, or personal messages. You can block people by adding their names to your block list at the bottom of the Privacy Settings page, or by checking **"Block this person"** when you report them. These people will not be notified when you block them, and any existing ties you have with them will be removed.

Always tell your parents/carers/teachers if you come across stuff on the Internet which makes you feel uncomfortable, or if someone on the Internet harasses you or threatens you.

Never send pictures of yourself or any other personal material to a friend you met online without consulting your parents/carers first.

How do I keep my facebook account private?

To edit the privacy settings for your own Facebook account, choose the "Privacy Settings" option from the Account drop-down menu available from the top right corner of every page. From this page you can personalize your privacy settings for Profile Information, Contact Information, Applications and Websites, and Search. It is very important that you do this and check from time to time that your settings are what you want them to be.

Do not give out any personal information about yourself, your family or friends on the internet or any social networking sites!

What about unwanted photos?

Facebook will only remove photos that violate their Statement of Rights and Responsibilities. However, there are some things you can do if you don't like a photo of you on the site:

To remove your name from a particular photo, simply view the photo and click the "**Remove Tag**" link next to your name. It will no longer be linked to your profile.

Remember that you can only be tagged in photos by your friends. If you are having problems with someone constantly tagging you in embarrassing photos, remove them as a friend.

Unfortunately, Facebook cannot make users remove photos that do not violate their Statement of Rights and Responsibilities.

Call anytime of day or night.
We promise to listen!
